

# Embed a PDF File

The screenshot shows a WordPress editor interface. At the top, there are navigation buttons: 'Save draft', 'Preview', 'Publish', and a star icon. Below this, a text block contains the following text: "At Stellar Widgets, we are currently testing prototypes for our own rocket-powered roller skates, and hope to bring this fictitious mode of transportation into reality. Stay tuned right here for the latest updates!".

Below the text is a widget titled "Download our Catalog...". The widget has a red button labeled "Stellar Widgets Catalog (PDF)", a red "DOWNLOAD" button, and a "Copy URL" button. There is also a small "+" icon below the widget.

On the right side, the "Block" settings panel is open. It has a "Document" tab and a "Block" sub-tab. Under "Text link settings", there is a "Link to" dropdown menu with "Media file" selected. Below this is a "Download button settings" section with a toggle switch labeled "Show download button" which is turned on. There is also an "Advanced" section which is currently collapsed.

At the bottom of the screenshot, there is a video player with a play button, a progress bar, and a timestamp of 01:54. Below the video player, there is a green button with a checkmark and the text "Completed".

✓ Completed
